The coatings are the perfect imitation
of the different finishes and allow for
a wide range of applications.

KARL BUBENHOFER AG

NEW SPECIAL POWDER COATINGS MIMIC THE LATEST DESIGN TRENDS

The facade is a key stylistic feature of a architectural building. The latest design trends for facades range from exposed concrete to Corten steel. Karl Bubenhofer AG has succeeded in producing special powder coatings that imitate the look and feel of these materials. The coatings open up completely new opportunities for designers.

✓ PERFECT IMITATION WITH POWDER COATINGS

Mimicking special material surfaces with powder coatings. The new coatings imitate the look and feel perfectly and can be used for a variety of purposes.

✓ NO DESIGN LIMITATIONS

There are no limits to the eye-catching design concepts possible with these new products. Their good resistance to light and weathering allows also a wide range of different uses.

Our new special powder coatings can be used externally for entire facades or to create architectural design highlights. The powders perfectly mimic the different materials, such as Corten steel, concrete and rust, and are ideal for a variety of applications. When used indoors, the coatings create an eye-catching and dramatic effect. The individual shades can be used to enhance the character of a room.

THE BENEFITS OF THE NEW POWDER COATINGS

- ✓ Good resistance to light and weathering
- ✓ No restrictions on designs or usage
- ✓ The same look and feel as the original materials
- ✓ Opportunities to create unusual designs
- ✓ No change in the surface over time.
The appearance remains the same
- ✓ Environmentally friendly
