## POLYFLEX® EP-20-KORROFLEXPRIMER MATT 10

**Benefit from low costs, short lead times and top quality!**

POLYFLEX® Korroflexprimer is an epoxy resin-based anti-corrosion powder coating for iron and steel substrates. Korroflexprimer offers lasting protection against corrosion as a single-coat system for functional interior applications or as a primer powder in two-coat systems for exterior applications.

### Properties

- Excellent corrosion protection
- High chemical resistance
- Good outgassing properties

### Applications

1-coat: Functional interior applications.

2-coats: As a primer for blasted and zinc-phosphated steel as well as for galvanised substrates in exterior areas.

### Areas of application

- Steel and metal construction
- Generally galvanised components
- For outdoor applications requiring high corrosion protection.

### Certifications

### Assortment

EP-20 (standard) and EP-20 Korroflexprimer GU are available in various shades of grey (e.g. RAL 7035 light grey and 7034 traffic grey A). POLYFLEX® EP-20 Korroflexprimer Matt 10 is available from stock in RAL 7035 (light grey) and RAL 7043 (traffic grey) with very short lead times.

Other colours according to RAL, NCS or individual colour specifications are available on request.

# POLYFLEX® Powder Coatings

## Sampling options

### A5 KABE Standard surface samples

A5 aluminium surface samples  
(including product information)

- Delivered in a practical sample case, ideal for filing.
- The surface patterns are coated according to your specifications if required.

### KABE powder coating sample

- We produce 1.5 kg of powder according to your requirements.
- Delivered in a 1.5 kg mini carton. (not valid for all items)

Request samples and technical information.
