**KARL BUBENHOFER AG**

## POLYFLEX® transparent powder coatings have been specially developed as protective coatings for surfaces that have already been painted or coated.

POLYFLEX® transparent powder coatings make the perfect top coat. They are highly resistant to cratching and impacts and have good mechanical properties. These transparent powder coatings are ideal for metal substrates both inside and outside. They provide excellent protection against corrosion and weather conditions.

**SHINE EFFECTS  
WITH  
TRANSPARENT  
POWDER COATING**

**DECORATIVE  
PROPERTIES**  
Special optical surface effects  
can be achieved on  
steel or aluminium.

**EASY  
APPLICATION**  
The application can be made  
with all common  
powder coating systems.

## Transparent powder coatings **indoors** (colorless shade no. 1M8217)

### **Art. Nr. 14882, POLYFLEX® PES-96-NT** Transparent smooth Corona gloss

Low bake powder for indoor use based on polyester resins. Gives transparent glossy surfaces with good flow. Stabilized against overcuring and discoloration in directly gas fired ovens.

### **Art. Nr. 14955, POLYFLEX® PES-96** transparent smooth Corona silk matt

Powder for indoor use based on polyester resins. Gives transparent silk matt surfaces with good flow. Stabilized against overcuring and discoloration in directly gas fired ovens.

## Transparent powder coatings **exterior** (colorless shade no. 1M8217)

### **Art. Nr. 11981, POLYFLEX® PES-125** transparent smooth Tribo/Corona gloss 90

### **Art. Nr. 12517, POLYFLEX® PES-125** transparent smooth Corona silk gloss 55

Powder for outdoor use based on polyester resins. Gives transparent glossy surfaces with very good flow and good light and weather resistance. Stabilized against overcuring and discoloration in directly gas fired ovens.

### **Art. Nr. 13877, POLYFLEX® PUR-125** transparent smooth antigrffiti Corona silk matt

Powder for outdoor use based on polyurethane. Gives transparent silk matt surfaces with good flow and very good light and weather resistance. The coatings exhibit a high crosslinking density resulting in exceptional solvent resistance. This feature allows the removal of so called „graffiti“ with appropriate products without damaging the coating. Stabilized against overcuring and discoloration in directly gas fired ovens.

### **Art. Nr. 14208, PPOLYFLEX® PAC-140-SD** transparent smooth Corona matt

Superdurable powder for outdoor use based on polyester resins. Gives transparent matt surfaces with good flow and excellent light and weather resistance. Stabilized against overcuring and discoloration in directly gas fired ovens.
